Address: Kati (Koulikoro), Mali,
Nationality: Mali

Professional Summary:

With an extensive academic background in pharmacy and years of experience working in molecular biology and microbiology labs, I am a highly motivated and detail-oriented pharmacist. The PharmD degree from the University of Techniques and Technologies of Bamako has equipped me with the skills and knowledge necessary to excel in the field, particularly in genomics research in drug efficacy assessment, which has sparked a strong interest in molecular biology and computer science. I am committed to advancing scientific knowledge through rigorous research and analysis independently and collaboratively.

Education

Doctoral degree in Pharmacy from the University of Techniques and Technologies of Bamako, Mali. *2015 – January 2023*

Antibiotic resistance profiles of *Escherichia coli* and *Salmonella spp* strains isolated in enteric infections in children aged 0-15 years in community settings: the case of CSCom de Yirimadjo, Bamako.

Master's in Hospital Administration from JSS Academy of Higher Education & Research, India. *2021 to August 2023*

Impact of the work environment on the satisfaction of health professionals and the benefits for patients in Bamako and other regions of Mali.

Master's in Bioinformatics from the African Center of Excellence in Bioinformatics, Mali. *2023 — November 2024*

Metagenomic analysis of enteric pathogens in children at CSCom Yirimadjo, Bamako.

Bachelor's degree in Computer Science from the University of People, Colorado Boulevard, USA. *2020 – January 2025*

Work Experience

Pathogens Genomics Diversity Network Africa Lab, Bamako, Sotuba
March 2023 – Present

AMR Microbiology Research Lab, Bamako, Point G
November 2021 – Present

MRTC Molecular Epidemiology and Drugs Resistance Unit, Bamako, Point G
January 2020 – Present

CHU Point G, Biomedical Laboratory, Bamako, Point G
August 2019 – December 2019

INSRP, Traditional Medicine Department, Bamako, Zone Industrielle
May 2019 – July 2019

National Health Laboratory, Department of Drugs, Bamako, Sar Salam
February 2019 – April 2019

MRTC, Department of Epidemiology and Parasite Affections, Bamako, Point G
October 2018 – January 2019

Training and Workshops:

WACCBIP, Ghana, Antimicrobial resistance workshop, *March* 2025
CSRS, Côte d'Ivoire, Etiology of the meningitis through metagenomic, *September* 2024
PAMCA, Rwanda, Genes Drive Course, and Mosquitoes Conference, *September 2022*
BioStruct-Africa, Mali, Hands-on Training in Structural Biology, *April 2022*
KNUST-KCCR, Ghana, Hands-on Training in Microbiology, *September 2021*
MRTC, Bamako, Laboratory Safety Training, *March 2020*

Certifications:

(Coursera) Imperial College London, Study Designs in Epidemiology, *May 2022*
(Coursera) UC San Diego, Drug Development, *May 2022*
(Coursera) University of Colorado, Advanced Clinical Data Science*, May 2022*
Jackson Laboratory, Human and Mammalian Genetics and Genomics, The 62nd McKusick Short Course, *July 2021*
OHSU-H3ABioNet, The 10*10 Health Informatics Course, *August 2020*

Articles:

- High frequency of antimicrobial resistance in *Salmonella* and *Escherichia coli* causing diarrheal diseases at the Yirimadio community health facility, Mali
- ELIXIR and Toxicology: a community in development

Networks and Society:

Member of the American Society for Microbiology (ASM)
Member of the American Society of Tropical Medicine and Hygiene (ASTMH)
Member of the Pan-African Mosquito Control Association (PAMCA)

Awards and Achievements:

Travel Awareness of HCA Developmental and Paediatric Cell Atlas Meeting (Paris), *November 2022*
Travel Awareness of the Pan-African Mosquito Control Association conference and training (Kigali), *September 2022*

Skills:

Languages: Bambara, French, English
Programming languages: Python, Bash, MySQL, PHP, R, Unix, C++
